THE CURRENCY BILL.

This admirable document may be found on our first page. Its structure and order, the "conduct of the story and the proportion of its parts," are most assuredly entitled to high commendation, for amble and resolution: we have never seen a plot more felicitous in its conception, or carried on with a more natural and antisfactory DEVELOPEMENT! It is simple to a fault. with no perplexing involutions, no exhibit of startling discoveries, no trick of unexpected surprises. "no cutting of knots by an extravagant device for the purpose of getting over a previous extravagance;" but moves on in a dignified order, one principle following another without confusion, all tending to unfold the characters of the actors, thus prometing the progress of a party which, however invulnerable in Missouri at present, must soon end its career in a natural and satisfying close. The author (Col. Benton) must be admired for his originality, for in this affair it is clear that he has followed in the footsteps of no predecessor. We are inclined to praise him for adopting a manner of his own, fettering himself by no model, inventing new theories, and executing them in a new way We are now on the border line between the old and the new era, and although we dislike revolution we will arouse our courage and stand the shock with the pleasing prospect of enjoying "the new feeling of the new age." The New Era, in speaking of it says: "This measure has the assent of Gov. Raynolds. It has been proposed by a leading member of the dominant party in the House of Representatives. The Senate embraces a majority of the same political faith. It is strictly a party measure, and if passed, all the good which may be flerived from it, will enure to the Loco Foco party. We are willing so to regard it. It is our deliberate judgment, then, that the Whig party should do nothing more than to give a silent vote upon the bill. No salutary amendment can be en grafted upon it. The Whigs have protested against the passage of any such law. They have warned the people of the evils which are to flow from it; and having done so, its advocates ought to be permitted to pass the bill after their own fashion. This, we know; is the opinion of members of the Legislature, and we trust they will not offer any opposition whatever to it except in giving their votes. Let it be understood that the paternity. the passage, and all the fruits of the measure, balong to the Loco Foco party.

INFAMY.

It becomes our duty as the conductors of a free press, to notice the most infamous proceeding that stands connected with Missouri Leegislation. Our readers are aware, that an attempt has been made by certain partizans in the Legislature to create the impression that Gen. Harrison was elected to the Presidency through the influence of foreign capitalists! To prove that such was the case, al! that seems to have been considered necessary was to the last of October. to pass resolutions that such was the fact. In furtherence thereof, Mr. Speaker Price introduced a set of resolutions which not only impugn American character, American intelligence, American virtee, and American patriotism, but must go far to disgrace bim and his co-laborers, in the estimation of all honorable men. Mr. Price's resolutions being before the House, Mr. Coalter, of St. Charles saked to strike out all after the word "Resolved," in Mr. P.'s first resolution, and insert the following:

Resolved, 1st, That the recent election of President of the United States, which has just termin ated in the election of Gen. Wm. H. Harrison, of Ohio, was not made in London, as has been stated of the American people, uncontrolled by any foreign influence.

2d. That the statement or insinuation that the American people can be controlled or directed in the manner of bestowing their votes for any office within their gift, by any other than the most honest motives, is highly derogatory to their character as freemen, and deserves the reprehension of every honorable mind.

all the bonds of the State remaining unsold.
Gib. That the Letters of Frederick Huth & Co. of London, dated Feb. 29th, June 3d, and Sept. 11th, 1840, disclose some evidence that the maladministration of the Federal Government and the uncalled for attempts of a part of the members of the United States Senate to destroy the eredit and standing of the States, have rendered the Boads of this and other States unsalosble at were called upon to take a decided and important

MATAMORAS, Oct. 31, 1840. The Federal chief, Juan M. Molano, has most basely and treacherously delivered the one hundred and thirteen foreigners which accompanied him into the hands of Gen. BUREN FACTION IN GEORGIA.

The factious adherents of Mr. Van Boren in Georgia are making the most desperate exertions to defeat the clearly expressed wishes of the people 3d. Calhoun, of Muscogee, to bring on the election of a United States Senator, came up for consideranoved to lay it on the table for the remainder of he session. The Harrison Senators remonstrated gainst this proposition. They insisted that the ogislature had been chosen with direct reference to he election of a Senator to Congress-that the constitution itself required the seat now occupied by Mr. Lumpkin to be filled after the expiration of his terin-and that if the motion prevailed the will of the majority of the people would be thwarted by the

arbitrary act of a minority of the State Sonators.

The following extract of a letter from the able ditor of the Augusta Sentinel, dated at Milledgeville, on Tuesday last, gives a vivid account of the proceedings in the Senate chamber, and in the public meeting of citizens consequent thereon:

"In this important crisis, the Harrison Senators
